Peter & Kristine Dingle 07 41 675140

Peter, Kristine and Kristopher Dingle from Redline Brangus Stud, Eidsvold, have prepared a team of 17 Red Brangus sires for the Classic Red Brangus Sale. Our bulls this year were chosen because of their muscling, good temperaments, efficient growth, weight for age, functionality and fertility. This is evident in their semen evaluation and scanning results.

All sale bulls are prepared in a grazing paddock where they have access to silage and are hand feed a small amount of bull maintenance pellets. Redline provides well covered bulls that are not overdone. Sale bulls are constantly handled with horses, bike and worked through our yards providing buyers with well-mannered seed stock that would suit any operation. Of the 17 bulls, 16 are registered and the majority of these bulls are polled, providing bulls for both stud and commercial operations.

Duff Red Brangus

Stephen Duff 0438 825370

The Duffs are fourth generation stud and commercial beef producer and one of the founders of the 'Classic Red Brangus Sale'.

The Red Brangus stud breeders are run under commercial conditions at "Tralee" near Proston on 5,000 acres of forest country and 1,000 acres of softwood scrub. The best weaner bull calves and replacement heifers are taken to "Springvale" at Gympie. The heifers are mated, sometimes by AI, as rising two year olds before returning to Tralee. The weaner bulls run on grass with occasional supplementation until the following winter when they are prepared for sale.

The aim is to produce bulls in the six to seven frame score range with 40 to 50% Brahman content. Emphasis is placed on correct structure, heavy bone, heavy fleshing, a proper polled head and a very quiet temperament. The Duff's believe quiet cattle not only do better but are safer and more satisfying to work with.

Jack & Mim Walker 07 49 931666

Jack and Mim Walker's Jateebie Red Brangus is a commercially oriented stud based at Theodore where stud breeders are run alongside the family's larger commercial herd on forest country and native pastures. The progeny are grown out on scrub country with buffel and legume pastures, producing grass fed EU, MSA and PCAS bullocks and surplus heifers.

Jateebie stud cows are also run with lower bos indicus content, commercial cows in the Injune district, producing Red Brangus weaners for a high quality MSA domestic supermarket supply chain.

The focus at Jateebie is to breed thick, easy doing and finishing, fertile cattle that will suit most markets. Fertility is of utmost importance at Jateebie and cattle are regularly challenged by country type and season and selected heavily on their reproductive performance.

Gavin McKenzie 07 49 825105

The Tannyfoil Brangus Stud, founded in 1998 by Gavin McKenzie and his parents Bevan & Denise, is based at "Tannyfoil", Blackwater.

The McKenzie's run a large commercial herd of over 2000 breeders, the majority being red, on properties in the Blackwater, Alpha and Arcadia Valley districts. Progeny and extra purchased steers are fattened off at two and a half years of age for the Jap market. A strict breeding policy concentrates on fertility and weight for age.

The stud's role is to supply bulls for their own breeding program whilst a number are selected to sell each year. This year 11 of these bulls will be offered at the Classic Red Brangus sale.

Stephen & Elaine Lil 02 68 421033

Chadwick Downs is a family owned and integrated business in breeding beef cattle suitable to the Australian environment. Qualities of fertility, longevity, and constitution are highly prized and recognized by many breeders. With just over 7000ha at Coonabarabran and Coonamble in the North-West of NSW, Chadwick Downs run a breeding herd of Red Brangus females, selling both bulls and females at auction and privately.

The stud came to prominence with the prepotent Duarran Yackandandah, Redline Beaumont, and Chadwick Downs Red Hermes and is now producing both bulls and females of exceptional quality and consistency. Red Brangus were selected for their fertility under adversity, constitution, and unique ability to complement existing Australian beef herds in temperate, sub-tropical, and central Australian beef cattle breeding areas.

DOONSIDE Bill & Kay Geddes 07 49 343150

Doonside is on the coastal side of the Bruce Highway 55 kms North of Rockhampton. It is where we endeavor to replace wire-grass on tea tree/ mahogany country with pangola grass and ponded pasture. We like a challenge. The Doonside herd evolved over so many years in such a harsh coastal environment, so buyers can be assured their purchases will grow out and do well anywhere. We realize that some of our clients have "good" country and we can assure them that because of our extensive genetic base, the progeny of their purchases from Doonside will have the required growth patterns.

Doonside bulls fit many cross-breeding programs and have been sold all over Queensland, New South Wales, The Northern Territory, and Western Australia where they have handled even the harshest conditions with the best of them.

Col, Deb, & Wes Goodwin 0429 829143

G L Brangus is a commercial/ stud cattle operation in Central Queensland run by Col, Deb, and Wes Goodwin at "Colorado", Bluff, approximately 180 kms west of Rockhampton. As GL (Goodwin Livestock) Brangus, they run about 120 registered cattle as well as 400 commercial breeders. Throughout their years of operation GL Brangus has used bulls by Sam's Prospector, Leachman Kingdom, Leachman Robin Hood, Leachman Heavenly, and Excelsior Chieftan, amongst others.

The herd thus became strong with Angus genetics, and Brahman was infused back into the herd with bulls sourced from Tartrus" at Marlborough and the Sorely family in Bell, which were red-polled with exceptional natures. These traits were reflected in their progeny. Red Brangus sires Duarran Apollo, Chadwick Downs Red Sunset, Tannyfoil Dominic, and Redline Illawarra have since been used with excellent progeny results.

BIMBADEEN Mark & Amanda Salisbury 07 41 675141

Bimbadeen Brangus is Australia's longest-serving Brangus stud (Stud No 9) offering almost 60 years of focused genetic selection. Run by Mark and Amanda Salisbury (daughter of founder Bruce Burnham), the stud offers quality red and black Brangus bulls and females with a focus on poll, fertility and structure, and a vision for long-term commercial results.

Bimbadeen is EU & PCAS accredited, and located in rolling granite hills north of Eidsvold, in Central Queensland. The stud's bloodlines are found in stud and commercial enterprises from the coast to the desert and south to Victoria. The Bimbadeen brand stands for stud quality, hard-working, fertile Brangus seed-stock you can depend on.

Chairman says commercial focus is what it's about

Classic Red Brangus Group Chairman, Mr Peter Dingle said 'keeping a commercial focus with a view to improving the bottom line for breeders, bullock fatteners and lot feeders is what it's all about.

Mr Dingle who has recently returned from selling bulls at Fitzroy Crossing in Western Australia said Red Brangus were starting to make a real impact even in herds running in some of Australia's harshest cattle country. 'They like Red Brangus out there because they know the bulls will handle the conditions and they like the genetic traits a Red Brangus has to offer'.

Only bulls that conform to our strict criteria can be catalogued for the Classic Red Brangus Sale. With the sale now in its 7th year we have enough data to measure our progress within the breed and against our main competitors. Mr Dingle said our average sale bull is 24 months of age, is about 790 kg's with a 122 cm EMA and a scrotal circumference of 39.2 square cm. 'You will go a long way to find a line of bulls with that the sort of performance and depth of quality in any breed', Mr Dingle said.

Classic Red Brangus breeders to the fore at Beef 2015

Classic Red Brangus breeders Bill and Kay Geddes, from the Doonside Stud and Peter and Kristine Dingle from the Redline Brangus Stud shared some of the major awards at Beef 2015. With 160 Brangus cattle on show competition was fierce with Red Brangus again dominant in the bull classes. Junior Champion Bull was Doonside Rocky exhibited by Bill and Kay Geddes, The Caves and Reserve Junior Champion was Redline Kingsford (LOT 23) exhibited by Peter and Kristine Dingle, Abercorn.

Beef 2015 Junior Champion Bull - Doonside Rocky

Beef 2015 Reserve Junior Champion Bull – Redline Kingford

Duff females dominate at Brisbane Ekka

Duff Red Brangus females again gave a dominant display at this year's Brisbane Exhibition. The stud won four of the five broad ribbons on offer with Duff Red Apple D67 being awarded Senior and Grand Champion Female.

Judge Mr. David McCamley of Palmal, Dingo said 'This cow is top class. She is really thick throughout and really oozes all the qualities you would want in a female'.

Mr Duff also exhibited 2014 Qld Brangus Feature Show Grand Champion Bull, Duff Hill End H51 (LOT 31) and Duff Jimbour J4 who sells as (LOT 32)
