agricultural auctions at a click

An AuctionsPlus Interfaced sale is run in conjunction with a physical auction that is being controlled by an auctioneer, to allow buyers to participate without attending the sale.

Online buyers can log in via the AuctionsPlus website and observe the auction in real time, and place bids on their computer. These bids are immediately transferred to a representative on site, who will raise that bid with the auctioneer.

Online bidding is available only to registered users. Registration is free - visit www.auctionsplus.com.au to register. Please register at least 48 hours prior to the sale.

Microsoft Silverlight is required to connect to AuctionsPlus sales; first time users are advised to visit the Downloads section of the AuctionsPlus website to ensure Silverlight is installed. Demonstration Auctions may also be viewed in order for new users to become familiar with the system.

Committed Breeders

Red Brangus is one of Australia's fastest growing breeds and are making a huge impact with their tick resistance, great fertility, excellent carcass traits, finishing ability and capacity to do well in all types of conditions.

Red Brangus are popular in cross breeding programs especially amongst breeders with red herds wanting to take advantage of the traits and hybrid vigor they offer. The feedback is – the calves are fantastic – our bullocks are heavier – our cattle are getting quieter. We are confident our cattle will stand up against any breed, will improve most herds and will do well in most conditions. We are committed to that end and will back them all the way.

REDLINE

Peter, Kristine and son Kristopher Dingle from Redline Brangus Stud, Eidsvold, have prepared a team of 26 Red Brangus sires for the Classic Red Brangus Sale.

Our bulls this year were chosen because of their muscling, good temperaments, efficient growth, weight for age, functionality and fertility. This is evident in their semen evaluation and scanning results.

All sale bulls are prepared in a grazing paddock where they have access to silage and are hand feed a small amount of bull maintenance pellets. Redline provides well covered bulls that are not over done. Sale bulls are constantly handled with horses, bike and worked through our yards providing buyers with well mannered seed stock that would suit any operation. Of the 26 bulls, 23 are polled, 24 bulls are either registered or can be registered, providing bulls for both stud and commercial operations.

DUFF

Stephen and Karyn Duff are fourth generation commercial beef producers with a young family who help with the cattle. Five hundred stud breeders are run, under commercial conditions, on six thousand acres at Proston. Their home base in Gympie's Mary Valley is used for replacement heifers and bull preparation.

The Duff Red Brangus motto is "Quality and Quietness". The stud presents quality bulls that are structurally sound, are heavy boned, are heavily fleshed, have proper polled heads and are naturally quiet. The Duff's believe quiet cattle do better and are safer to work with. All bulls are registered and have depth of breeding being by some of the best Red Brangus Sires in Australia. They were mustered with horses and dogs to weaning and since then have been gradually prepared/ supplemented for sale in grass paddocks that have Lantana in the creeks.

CHADWICK DOWNS

Chadwick Downs is a family owned and integrated business in breeding beef cattle suitable to the Australian environment. Qualities of fertility, longevity and constitution are highly prized and recognised by many breeders both in Australia and around the world.

With just over 7000ha at Coonabarabran and Coonamble in the North-West of NSW Australia, Chadwick Downs run a breeding herd of Red Brangus females, selling both bulls and females at auction and privately throughout Australia and overseas.

The Chadwick Downs Red Brangus breeding program began in 2000 with the introduction of Red Brangus bulls into the Red Angus herd and the purchase of select registered Red Brangus females. The stud came to prominence with the introduction of the prepotent Duarran Yackandandah, Redline Beaumont and Chadwick Downs Red Hermes and is now producing both bulls and females of exceptional quality and consistency.

Red Brangus were selected for their fertility under adversity, constitution and unique ability to complement existing Australian beef herds, in temperate, sub-tropical and central Australian beef cattle breeding areas.

JATEEBEE

Jack and Mim Walker's Jateebee Red Brangus is a commercially oriented stud based at Theodore where stud breeders are run alongside the family's larger commercial herd, producing grassfed EU bullocks.

Jateebee stud cows are also run with lower bos indicus content, commercial cows in the Jackson and Injune districts, producing red brangus weaners that consistently attract premium prices for the Walker family at the Roma saleyards.

The focus at Jateebee is to breed thick, easy doing, fertile cattle that will suit most markets. Fertility is of utmost importance at Jateebee and cattle are often challenged and selected heavily on this factor.

Commercial cattlemen and stud masters alike will appreciate the tremendous fleshing and sire appeal of this year's line of 10 registered, rising 2 year old bulls that are typical of the Jateebee's goals.

TANNYFOIL

The Tannyfoil Brangus Stud, founded in 1998 by Gavin McKenzie and his parents Bevan & Denise, is based at Tannyfoil, Blackwater.

The McKenzie's run a large commercial herd of over 2000 breeders, the majority being red, on properties in the Blackwater, Alpha and Arcadia Valley districts. Progeny and extra purchased steers are fattened off at two and a half years of age for the Jap market. A strict breeding policy concentrates on fertility and weight for age.

The studs' role is to supply bulls for their own breeding program while a number are selected to sell each year. This year seven of these bulls will be offered at the Classic Red Brangus Sale.

DOONSIDE

Doonside is on the coastal side of the Bruce Highway 55kms North of Rockhampton. It is where we endeavor to replace wire-grass on tea tree/ mahogany country with pangola grass and ponded pasture. We like a challenge.

Because the Doonside herd has evolved over so many years in such a harsh coastal environment, buyers can be assured their purchases will grow out and do well anywhere. We realise that some of our clients have "good" country and we can assure them that because of our extensive genetic base, the progeny of their purchases from Doonside will have the required growth patterns.

Doonside Bulls fit many cross breeding programs - giving the ability to finish and grade in short seasons, with genuine meat quality, good fertility and quiet temperament.

Over years of breeding cattle under stressful conditions on poorer coastal country a very hardy line of Red Brangus cattle have developed. Bulls have been sold all over Queensland, New South Wales, The Northern Territory and Western Australia where they have handled even the harshest conditions with the best of them.

Chairman says Commercial Focus Main Aim

Classic Red Brangus Group Chairman, Mr Peter Dingle said 'our main aim is to produce bulls that will lift the performance of commercial herds throughout Australia'.

Only bulls that conform to our strict criteria can be catalogued for the Classic Red Brangus Sale. The average Classic Red Brangus Sale Bull in 2012 was polled, weighed 820 Kg's at 24 months of age with a 122 cm EMA and a scrotal circumference of 39.5 CM. You will go a long way to find that sort of performance and depth of quality in a line-up of bulls in any breed, Mr. Dingle said.

Mr Dingle also acknowledged the efforts of the Lill Family to catalogue 12 lots following the wild fires that ravaged their properties in January this year. Chadwick Downs lost the historic Glenmore Homestead, numerous sheds, tractors and fences along with hundreds of registered Red Brangus cows and calves.

Queensland Miss Show Girl to open Classic Red Brangus Sale

The newly crowned Queensland Miss Show Girl, Donna Baker will open this year's Sale.

Donna is the partner of Kristopher Dingle and plays an integral part in the family stud enterprise as well as the annual Classic Red Brangus Sale. Donna represented the Monto Show Society and the Burnett Region at the State Finals held at the Brisbane Exhibition in August.

Red Brangus Success at Brisbane Ekka

Red Brangus again dominated the Brangus Judging at this year's Brisbane Exhibition winning 6 of the 8 broad ribbons on offer. Duff Red Brangus finished the day with 5 firsts and 3 Championships.
